Koha
Integrated Library Management System
Purpose of Presentation

1. Koha Introduction & Features
2. Koha Modules
3. What NLJ will Offer

Presentation Road Map
Koha

Introduction

Koha is a full featured integrated library management system that was developed by individuals and organizations around the globe.
Introduction Overview

- It is designed to manage physical collections of items (books, audio visual materials, maps, etc.)
- The user interface is very configurable and adaptable.
- It has an OPAC interface, cataloguing, acquisition and circulation modules.
Koha Features Overview

- Web based OPAC
- Keyword and advance search
- Virtual shelf browser
- Personalized patron experience
- Circulation system
- Check in and out with barcode scanner
- Transfer materials between branches
Koha Features Overview

- Upload patrons in bulk
- Run reports on circulation custom to your library
- Batch uploading
- Built in Z39.50 search engine
- Generate and search reports
Koha Features Overview

- Add budget and funds
- Keep track of all vendor information
- Track order status
- Accept purchase suggestion from patrons
- Create subscription with full prediction pattern
Koha Modules
Koha Modules

- OPAC
- Patron
